

# PING IDENTITY HEALTH CHECK

At ProofID, we believe in the power of partnership to elevate your IAM excellence. As Ping Identity's leading trusted delivery partner for 5 consecutive years, we bring unparalleled expertise to the Ping Identity Health Check. Let us guide you through this transformative evaluation, unlocking new possibilities for your IAM and strengthening your identity security.

A Ping Identity IAM Health Check is a comprehensive assessment of your organization's Ping Identity IAM infrastructure. Our goal is to evaluate its health, performance, and security, identifying areas for improvement, potential risks, and optimization opportunities. Join us on this journey to enhance your IAM capabilities and fortify your identity protection.

## ▶ BENEFITS

- ▶ Check performed by certified Ping Identity experts
- ▶ Detailed report indicating gaps and improvements
- ▶ Certified IAM consultants to help strategize IAM roadmap
- ▶ Enhance IAM Efficiency with performance fine tuning
- ▶ Strengthen IAM resilience by minimizing identity-related risks
- ▶ Accelerated ROI by optimizing performance

▶ **5 STEP IAM HEALTH CHECK**

1

**PRE-ASSESSMENT CONSULTATION**

A pre-assessment consultation is conducted to identify the organization's specific IAM requirements, objectives, and pain points.

2

**DATA GATHERING**

Data is gathered, including configuration settings, user access policies, authentication mechanisms, integration with other systems, system logs and performance metrics.

3

**PERFORMANCE EVALUATION**

Performance of the IAM implementation is evaluated in terms of response times, latency, scalability and more.

4

**REPORT AND RECOMMENDATIONS**

A detailed report is created outlining health check results, potential risks and recommendations for improvement.

5

**POST-ASSESSMENT CONSULTATION**

Post-assessment consultation is held to present the report findings with actionable recommendations.

+

**IMPLEMENTATION SUPPORT & MONITORING (OPTIONAL)**

Optional implementation support and follow-up monitoring are available.
